Prior Art Citations

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Chapman, Reitz, Geib, Jr. et al., Schmidt and Garrett are cited as art of interest.

Remarks

The claim contains allowable subject matter because none of the prior art of record taken alone or in combination thereof shows or fairly suggests the claimed bolt and nut assembly. Specifically, the claimed structural interrelationship between the bolt, the plastic washer, the metal washer, the circlet and the lock nut is not shown or made obvious by the prior art of record or any combination thereof.
